

MARYLAND
AUTO INSURANCE

**Your book is about
to get bigger.**

And better.

Welcome to Maryland Auto Insurance.

A great way to get customers. And keep them.

Maryland Auto Insurance gives you the opportunity to insure drivers who are ineligible for standard policies. That's great in and of itself because it can mean more business for you right now. But because those same policyholders have a high potential of converting to standard policies, there's long-term business in it for you as well.

- You insure customers who would otherwise be uninsured. That means more people in the door and more policyholders in your book.
- Maryland Auto policyholders who remain in good standing can be converted to standard policies, often in as little as a few months.

To start the enrollment process, visit our website and complete an application. It's easy. It's quick. And it's a great way to get more policies in your book, fast.

That's the beauty of Maryland Auto. For our state, it means more legal drivers on our roads. For you, it means more business in the short term and the long term. How great is that?
